

I object to the NAB's petition, 04-160, to stop XM radio from providing instant traffic and weather to it's listeners. XM has a right to the first amendment! I have a right to pick and choose where I get my information as well. If I choose to listen to a local channel for traffic and weather information, I will. And I have on many occasions. However, I pay for XM radio, and t & w info is part of what I pay for. I believe that this small service they provide does not in any way threaten local radio stations.
